

DHAVAMANI S

Software Engineer

sdhavamani22@gmail.com | +91 9787298534 | LinkedIn | GitHub | LeetCode

Professional Summary

Computer Science undergraduate with strong foundations in Java, Object-Oriented Programming, Data Structures & Algorithms, SQL and REST API development. Experienced in building scalable full-stack web applications using React, Node.js, Express.js, MongoDB, and MySQL. Passionate about software engineering, problem-solving, and learning modern enterprise technologies.

Education

Government College of Technology, Coimbatore <i>Bachelor of Engineering in Computer Science and Engineering</i>	2022 – 2026 CGPA: 7.7 / 10
Noble Matriculation Higher Secondary School, Periyavallikulam, Virudhunagar <i>Higher Secondary Certificate (HSC) – 96.17%</i>	2020 – 2022 <i>Secondary School Leaving Certificate (SSLC) – 92.00%</i>

Experience

Emglitz Technologies <i>Java Developer Intern</i>	Jul 2025
---	----------

- Developed a console-based Railway Ticket Reservation System using Core Java.
- Applied object-oriented design principles including abstraction, encapsulation, inheritance, and polymorphism.
- Utilized Java Collections Framework for ticket allocation, RAC, and waiting list management.

American Megatrends India (AMI) <i>Trainee</i>	Jan 2026 – Apr 2026
--	---------------------

- Completed industry-oriented training in C, C++, Linux, Git, GitHub, and OpenBMC.
- Gained practical exposure to Linux environments, version control workflows, and embedded firmware concepts.
- Developed familiarity with OpenBMC architecture and collaborative software development practices.

Projects

FinTrack – Personal Finance Management Platform	FinTrack
--	----------

- Developed a full-stack finance management platform using React, Node.js, Express.js, and MongoDB.
- Designed secure REST APIs with JWT-based authentication and role-based route protection.
- Implemented expense tracking, investment planning, SIP and EMI calculators, and analytics dashboards.
- Structured the backend using the MVC architecture, improving maintainability and scalability of the application.

DevConnect – Professional Networking Platform	DevConnect
--	------------

- Developed a real-time developer networking platform enabling secure communication and professional connections.
- Integrated Socket.IO for instant messaging and JWT for authentication.
- Designed scalable backend services and MongoDB schemas.
- Built responsive interfaces using React.js and TailwindCSS.

GestVoice – Intelligent Gesture & Voice Control System	GestVoice
---	-----------

- Developed a Python-based hands-free computer interaction system using voice commands and hand gestures.
- Integrated MediaPipe, OpenCV, SpeechRecognition, pytsx3, and PyAutoGUI for real-time interaction.
- Enabled desktop automation including mouse control, keyboard shortcuts, browser navigation, media handling, and system operations.

Technical Skills

Languages: Java, Python, JavaScript, SQL, C, C++

Frontend: HTML5, CSS3, React.js, TailwindCSS

Backend: Node.js, Express.js, Spring Boot

Databases: MongoDB, MySQL

Tools: Git, GitHub, Linux, Postman, Power BI, Maven

Technologies: REST APIs, JWT, Socket.IO, Spring Data JPA, Hibernate

Leadership Experience & Achievements

National Service Scheme (NSS)

Chief Advisor

- Led and coordinated two 7-day NSS Special Camps involving over 60 volunteers, organizing awareness campaigns, environmental initiatives, and community outreach activities.

TMFA GCT

Silambam Team Coordinator

- Organized training sessions and coordinated team activities within the institution.

Government of Tamil Nadu

Junior Grade Typewriting (English)

First Class

Certifications

ReactJS (Great Learning) • MongoDB University • HTML5 & CSS3 (Infosys Springboard) • JavaScript & Full Stack Development (Infosys Springboard)
• Python Essentials (LinkedIn Learning) • Java OOP (LinkedIn Learning)
