

DHAVAMANI S

Software Developer

sdhavamani22@gmail.com | +91 9787298534 | LinkedIn | GitHub | LeetCode

Professional Summary

Computer Science graduate with hands-on experience in Java, Spring Boot, MERN Stack, and REST API development. Built scalable full-stack applications following software development lifecycle (SDLC) practices, including authentication, database design, API integration, and deployment. Passionate about designing efficient software solutions, problem-solving, and continuously learning modern technologies.

Education

Government College of Technology, Coimbatore	2022 – 2026
Bachelor of Engineering in Computer Science and Engineering	CGPA: 7.74 / 10
Noble Matriculation Higher Secondary School, Periyavallikulam, Virudhunagar	2020 – 2022
Higher Secondary Certificate (HSC) – 96.17%	Secondary School Leaving Certificate (SSLC) – 92.00%

Experience

American Megatrends India (AMI)	Jan 2026 – Apr 2026
Trainee	

- Completed industry-oriented training in C, C++, Linux, Git, GitHub, and OpenBMC.
- Gained practical exposure to Linux environments, version control workflows, and embedded firmware concepts.
- Developed familiarity with OpenBMC architecture and collaborative software development practices.

Emglitz Technologies	Jul 2025
Java Developer Intern	

- Developed a Train Ticket Reservation System using Core Java and object-oriented programming principles.
- Applied low-level design concepts including modularity, abstraction, encapsulation, and design patterns.
- Utilized Java Collections Framework for efficient data handling and business logic implementation.

Projects

CareerOS – AI-powered career build management platform	CareerOS
---	----------

- Built a full-stack CareerOS platform using React, Vite, Spring Boot, and REST APIs to help users manage job search, profiles, resumes, and applications in one system.
- Developed AI-powered career tools including resume tailoring, job description analysis, interview preparation, and mentor chat using integrated AI services.
- Implemented secure authentication, dashboard analytics, application tracking, timeline management, and settings/profile management.

FinTrack – Personal Finance Management Platform	FinTrack
--	----------

- Developed a full-stack MERN application for managing expenses, investments, SIP calculations, and EMI planning.
- Implemented JWT authentication, protected routes, and secure session handling.
- Built interactive dashboards using dynamic charts to visualize spending patterns, investment growth, and financial insights.

Personal Developer – Personal Portfolio	Personal Developer
--	--------------------

- Built a responsive personal portfolio website using React, Tailwind CSS, and JavaScript to present professional profile, skills, and project work.
- Showcased full-stack and backend projects including MERN applications, Java utilities, and API-based tools with GitHub links for easy review.
- Implemented reusable sections for About, Projects, Skills, Contact, and Social Links, improving navigation and user experience.

Technical Skills

Languages: Java, JavaScript, C, SQL

Frontend: HTML5, CSS3, React.js, TailwindCSS

Backend: Spring Boot, Spring Security, Maven, Node.js, Express.js

Databases: MongoDB, MySQL

Tools: Git, GitHub, Linux, Postman, Canva

Leadership Experience & Achievements

National Service Scheme (NSS)

Chief Advisor

- Led and coordinated two 7-day NSS Special Camps involving over 60 volunteers, organizing awareness campaigns, environmental initiatives, and community outreach activities.

TMFA GCT

Silambam Team Coordinator

- Organized training sessions and coordinated team activities within the institution.

Government of Tamil Nadu

Junior Grade Typewriting (English)

First Class

Certifications

ReactJS (Great Learning) • MongoDB University • HTML5 & CSS3 (Infosys Springboard) • JavaScript & Full Stack Development (Infosys Springboard) • Python Essentials (LinkedIn Learning) • Java OOP (LinkedIn Learning)
